

## YOUR LOCAL AHMP

Since its founding, AHMP has focused on helping members succeed. We supply thousands of members with the tools and skills they need to excel in the career fields of environmental, health, safety, and security management.

### OUR MISSION

AHMP maximizes our community, voice, knowledge exchange, and management support of hazardous materials professionals, making our world safer and healthier.

### WHO SHOULD JOIN?

Members include environmental, health, safety, and hazardous materials professionals dedicated to workplace safety, regulatory compliance, and best practices in EHS&S. They come from diverse areas of expertise, including:

- Cleanup and Disposal
- Chemical Safety
- Community Right to Know
- Emergency Planning and Response
- Employee Training
- EHS Auditing
- Environmental Compliance
- EHS Management Systems
- Environmental Permitting
- Hazard Assessment
- Hazardous Materials Transportation
- Hazardous Waste Management
- Industrial Hygiene
- OSHA Hazard Communication
- PPE
- Regulations and Standards
- Sustainability and ESG Reporting
- Waste Minimization

### NETWORKING

Networking opportunities connect members with industry professionals, fostering collaboration, knowledge sharing, and career growth. Through events, webinars, and forums, members can build valuable relationships, stay informed on industry trends, and expand their professional network.

## PROFESSIONAL DEVELOPMENT

**EHS HAZMAT Summit:** Attendees can earn up to 20 CMP credits through expert-led educational sessions, hands-on training, and interactive discussions on the latest regulations and best practices. The event offers valuable networking opportunities, an exhibitor showcase featuring cutting-edge products and services, and immersive experiences such as a live emergency-response scenario and field trips to key industry sites. Members enjoy exclusive savings on registration.

**Webinars:** Members gain free access to interactive, expert-led webinars covering the latest trends, regulations, and best practices. Recordings are also available for members via the AHMP website.

**EHMM Courses:** Available throughout the year, the Essentials of Hazardous Materials Management course provides essential training for EHS&S professionals, helping newcomers build a strong foundation and offering seasoned experts a comprehensive refresher. It also serves as a valuable prep tool for the CHMM® certification exam. Members receive discounted registration.

**Scholarships:** EHMM Scholarships are awarded quarterly to AHMP members in good standing, covering course tuition and an e-Desk Reference for virtual or in-person events.

**The Hazardous Materials Management Desk Reference:** Members receive a 20% discount on this publication featuring more than 50 chapters providing a comprehensive look at the HMM field and an in-depth review of hazardous materials laws and regulations, science and technology, and management principles.

No matter where you are in your hazardous materials management career, AHMP has the resources to help you go further!

#### Just Entering the Profession...

Work with an experienced mentor. Connect with potential hiring managers. Take advantage of discount membership fees. Learn new skills and get professional tips from seasoned experts in the field.

#### Mid-Career...
