

John Shegerian
Co-Founder, Chairman/CEO
ERI

John Shegerian serves as co-founder, Chairman and CEO of [ERI](#), the largest ITAD service provider and recycler of e-waste in the United States. He also co-founded [RecycleNation](#), the #1 ranked search engine and responsible recycling database for consumers. He is the host of the [Impact Podcast](#), the leading sustainability discussion program.

TALK SYNOPSIS:

Achieving Sustainability and ESG Goals By Responsibly Recycling Electronics

How circular electronics management can help companies achieve broader ESG goals while keeping toxins out of landfills.

In this presentation, John Shegerian, co-founder of ERI, the largest recycler of e-waste in the US, will share how the responsible recycling of e-waste is a relatively simple way to achieve ESG and sustainability goals. He'll share why the circular economy is a critical solution for end-of-life electronics and best practices on how to get there.
