Instructor is Industrial Safety & Training Services Gain the knowledge and skills necessary to properly understand and control safety hazards associated with permit-required confined spaces. This hands-on course will provide training on air monitoring, and entry equipment, and you'll conduct a practice horizontal and vertical entry in accordance with OSHA standards 29 CFR § 1910.146 and 29 CFR § 1926, Subpart AA.

OPTION 2: BROWN FORMAN DISTILLERY

Cost: \$65 | **Registration Limit:** 24

Time: 4 Hour Session

Lunch: Box Lunch Included

Transportation: Round Trip Included

Explore our state-of-the-art distilling facilities, from grain to finished bourbon. Witness the time-honored traditions and innovative techniques that define Brown-Forman Distillery. Immerse yourself in the sights, sounds, and aromas of a working distillery. Discover our new systems for managing wastewater, designed to minimize our environmental impact and set a new standard for responsible distilling.

OPTION 3: ZRO WASTE

Cost: \$65 | **Registration Limit:** Unlimited

Time: 4 Hour Session

Lunch: Box Lunch Included

Transportation: Round Trip Included

Join us to see an emerging technology to treat several different types of waste and convert it into energy. It's kind of like having a mini version of Covanta on your site. The company is called Zro Waste. They specialize in placing site-based waste to energy modules at a client's facility and recovering the energy in the form of steam, HVAC and electricity. It has the added benefit of getting hot enough to responsibly dispose of PFAS containing materials. Those who are interested in pursuing sustainability goals related to waste management are invited to see this technology in action.

OPTION 4: RECYCLING MANAGEMENT

Cost: \$65 | **Registration Limit:** 40

Time: 3-4 Hour Session

Lunch: Box Lunch Included

Transportation: Round Trip Included

Come visit a local recycling organization that integrates safety training into their operational processes. RMR utilizes automation, modern equipment, inspection processes and a comprehensive safety training program to keep our associates safe while bringing quality recycling services to our customers.
